DETAILED ACTION

Claims 1-28 are pending in this application.

Action Summary

1. The rejection of claims 1-3, 5-8, 10, 11, 16 and 21-28 provisionally rejected on the grounds of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-3, 10-12 and 22 of copending application 11/371,042 is hereby withdrawn.

Statement of Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious a transdermal formulation for administering an active agent, wherein the active agent is estrogen, a progestin is not present in the formulation, and when the active agent is progestin, a estrogen is not present in the formulation; and a delivery vehicle comprising a C₂ to C₄ alkanol, a polyalcohol, and permeation enhancer of a monoalkyl ether of diethylene glycol. The formulation is also substantially free of long-chain fatty alcohols, long-chain fatty acids and long-chain fatty esters. The closest prior art does not teach a formulation that is substantially free of long-chain fatty alcohols, long-chain fatty acids and long-chain fatty esters.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
